MOHSIN NAQVI

MERN Stack Developer | Full-Stack Web Developer

Lahore, Pakistan | 0335 9291472 | notmohsinnaqvi@gmail.com

PROFESSIONAL SUMMARY

Computer Science graduate and MERN Stack Developer with a strong foundation in programming, web development, Data Structures, Object-Oriented Programming, and database management. Skilled in JavaScript, React.js, Node.js, Express.js, MongoDB, SQL, PHP, Python, Java, and C++, with practical experience developing responsive and user-friendly web applications. Experienced in frontend web applications, e-commerce solutions, REST APIs, database-driven applications, CRUD operations, API integration, and full-stack development. Familiar with Artificial Intelligence, Machine Learning, and Data Analysis. Strong problem-solving, communication, teamwork, adaptability, and quick-learning abilities.

TECHNICAL SKILLS

Programming Languages:	C++, Java, JavaScript, PHP, Python, SQL
MERN / Full-Stack:	MongoDB, Express.js, React.js, Node.js, REST APIs, API Integration, CRUD Operations
Frontend:	HTML5, CSS3, JavaScript, React.js, Responsive Web Design, Interactive UI, Component-Based Development
Backend:	Node.js, Express.js, RESTful APIs, Server-Side Development, Database Connectivity, CRUD Operations
Database:	Advanced Database Concepts, MongoDB, SQL, Database Design, Relational Databases, Data Modeling, Queries & Data Management
Computer Science:	Data Structures & Algorithms, Object-Oriented Programming, Programming Fundamentals, Problem Solving
AI / ML / Data:	Basic Artificial Intelligence, Basic Machine Learning, Data Analysis
Professional:	Problem-Solving, Communication, Teamwork, Quick Learning, Adaptability, Time Management, Logical Thinking

PROJECTS

E-Commerce Web Application

- Developed a modern, responsive e-commerce web application with product browsing, product details, categories, and interactive UI components.
- Worked with backend functionality, database-driven application concepts, API integration, and CRUD operations.
- Focused on usability, responsive design, clean UI, and user experience.

MERN Stack Web Applications

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Created frontend interfaces and connected them with backend services, REST APIs, and databases.
- Implemented database operations, dynamic data handling, CRUD functionality, and frontend-backend integration.

Frontend Web Applications

- Developed multiple responsive applications using HTML, CSS, JavaScript, and React.js.
- Created interactive interfaces with reusable components, dynamic content, responsive layouts, and API-driven data.

API-Based Web Applications

- Integrated REST APIs to retrieve, send, and manage application data.
- Worked with JSON data, API requests/responses, dynamic rendering, and frontend-backend communication.

Critical Path Method (CPM) Calculator

- Developed a web-based CPM Calculator for project scheduling and management.
- Implemented task duration, dependencies, Critical Path, Project Duration, ES, EF, LS, LF, and Slack calculations.
- Added database storage, result management, and data visualization functionality using PHP and database integration.

EDUCATION

BS Computer Science — University of Management and Technology (UMT), Lahore | 2022 – 2026 | CGPA: 2.8

F.Sc. — BISE Lahore | 2020 – 2021 | 814/1100

Matriculation — BISE Sargodha | 2018 – 2019 | 1006/1100

CERTIFICATIONS & COURSES

Website Frontend Development — 3-Month Course | Hello World, Bhakkar

EXPERIENCE

Fresh Graduate / Entry-Level MERN Stack Developer

- Developing practical expertise in MERN stack development through hands-on projects.
- Building responsive web applications using React.js, JavaScript, HTML, and CSS.
- Developing backend functionality using Node.js and Express.js.
- Working with MongoDB and SQL databases for data storage and management.
- Creating and consuming REST APIs and implementing CRUD operations.
- Continuously improving full-stack development skills through practical projects and self-learning.

LANGUAGES

Urdu: Native **English:** Professional Working Proficiency **German:** Basic

CAREER OBJECTIVE

To obtain an entry-level MERN Stack Developer / Full-Stack Web Developer position where I can apply my programming, web development, database, and API development skills to real-world projects. I aim to contribute to a professional development team, continuously learn modern technologies, and grow into a skilled and experienced software developer.
